

Inputs

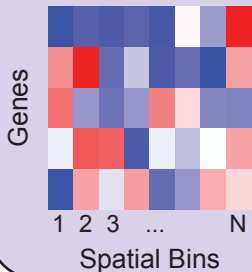

Tissue image

Spatial transcript coordinates

Gene expression matrix

Preprocessing

Normalize image intensity

Match transcript counts to spatial coordinates

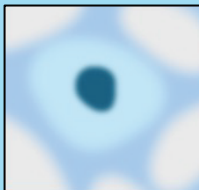

Select the tissue region to analyze

Segmentation

Nuclei Segmentation

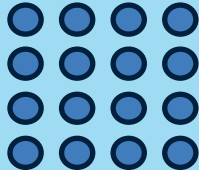

- StarDist
- Cellpose

Cellular imaging

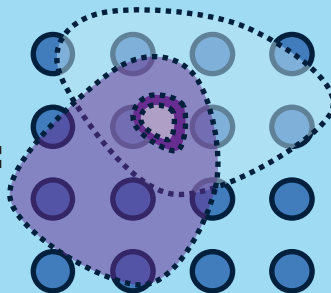

+

Transcript image

Cell segmentation

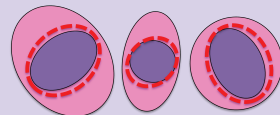

Cell Segmentation

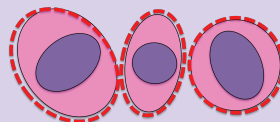

- StarDist + Proximity
- StarDist + Voronoi
- Cellpose + Proximity
- Cellpose + Voronoi
- Cellpose 'Cyto3'
- Naïve Grid
- STP (tuned & untuned)
- Bin2cell

Outputs

Nuclues boundaries

Whole-cell boundaries

Cell-by-gene expression tables

Gene	Cell 1	Cell 2	...	Cell N
Gene 1	3	0	...	4
Gene 2	1	8	...	0
...	...	...	...	...
Gene M	0	2	...	7

Comparison summaries
